
Newsletter

Queensland My place Monthly Newsletter, September 2024

Welcome to the first state wide newsletter dedicated to all My place members across the state of Queensland. Here we will showcase not only what has happened but what is also happening across the state where each group sends us information for the purpose of this newsletter. We are dedicated in keeping you informed where perhaps one day we will do this nationally. Currently Qld and Vic are trialling this so feedback is important. We hope you enjoy the first instalment.

If you are new to the My place family in Queensland, very recently on Thursday the 29th of August we had a statewide zoom with Darren who founded My place down in Victoria some time ago. Link to that zoom call is:

<https://rumble.com/v5d2wsa-my-place-queensland-zoom-call.html>

Please subscribe to the Rumble channel for future video's.

Lets take a look at many of the groups who have submitted their information!

My place Toowoomba

Katie and Kylie are two powerhouse ladies who have done very well with this group. From the get go, they have been busy gathering member email addresses where they now can send this newsletter out to over 200 people in and around the Toowoomba region. MP Toowoomba has been having regular meetings and has also well and truly been involved keeping their local council in check.

They have 2 important dates coming up:

Bronwyn Holm, Biological Botanical Growing. Monday the 9th of September @ Toowoomba City Library

Our September monthly meeting is not one to be missed - our guest speaker, Bronwyn Holm from Brisbane is an international keynote speaker in Hemp and Regenerative Agriculture, and Food as Medicine. Bronwyn will be talking about "Biological Botanical growing and saving yourselves from seed clouding poisons, big ag narrative of brainwashing and what is next in the sector, and how to avoid the controlling factors".

Bring a friend and your plant growing issues, farmer neighbours and anyone who wants to do things differently. She will us some tips on how to save your lawn, bees, worms, food supplies and your potential future.

Seed Fest

My place Toowoomba will be holding a stall here on Monday the 7th of October. Event will be at Blue Haze, 702 Anduramba Range rd, Anduramba which is just north of Crows Nest in QLD.

Join us at Seedfest, a vibrant Seed Freedom Food Festival dedicated to celebrating seed sovereignty, promoting biodiversity, and building stronger local communities. This is your chance to make a difference, connect with like-minded individuals, and enjoy a day filled with inspiration, education, and fun!

My Place Jimboomba

Back in June MP Jimboomba decided to hold a mini health expo - **it was such a success that we are going to hold another soon.**

We meet in small country hall that was a perfect venue for this event. Our plan was to set up tables around the perimeter where the various practitioners could display their wares. Our members and guests would sit on the bench seats in the middle and then I (as co-ordinator), would 'take the mic' from table to table and ask each practitioner to share a few points about their modality and products, and what item they were offering for our door prize. On the night we had about eight practitioners who each spoke for about five minutes; between them we had at least 20 free gifts, including a facial, a complimentary Bowen therapy session, and three silver half-ounce rounds generously donated by Ainslie Bullion, who had been our guest speaker a few weeks earlier.

The modalities represented on the night included: German New Medicine, Sound Healing, Essential Oils, Quantum Hypnosis Healing, Western Shamanic Healing, Dr Hauschka Facials, Massage, Counselling, Nutrition, Stem Cell Activation Patches, Natural alternatives for Skin Cancer, Bowen Therapy, and Homeopathy. Our funniest stand was 'Men's Health', which was actually a couple of the guys from our Tinker Shed. We figured that this was a genuine health-promoting activity for our men, who enjoy their time chatting and working on projects together, although someone's thumb did get in the way of the drill, one time...

We charged each practitioner \$5 for the opportunity, and they each set up an attractive display table. (We might charge more next time!) Our members pay a gold-coin donation. (We might charge more next time!)

My Place Jimboomba invites you to a **MINI HEALTH EXPO**

MY PLACE Jimboomba

Bowen Therapy, Counselling Services, Essential Oils, Facials, German New Medicine, Homeopathy, Kinesiotraining, Massage, Men's Health, Nutrition, Quantum Healing Hypnosis Technique, Sound Healing, Western Shamanic Healing (home and land clearing), Stem Cell Activation Patches.

FRIDAY 28TH JUNE

at Woodhill Hall,
6098 Mt Lindesay Highway Woodhill

Refreshments available from 6.30 pm
Event begins 7 pm
Gold coins appreciated to cover cost of hall.
BYO cushion or own seat as the benches are hard.

Three half-ounce silver rounds to be given away as door prizes!

We created a flyer that we distributed around the local township and, of course, promoted on our Facebook and Telegram pages, in the Unity Hub, and in our e-newsletter. Prior to this event our numbers had been quite low (around 20); there were about 45 people at the Expo, based on raffle tickets!

At the last minute we thought of taking some photos of the event and later realised that we need to ask those who didn't want to be photographed to let us know so that we could 'publish' the photos. A few attached below.

We already have a list of potential practitioners for our next/future events.

My place Jimboomba is also getting behind this fun event to the right which encourages writers to step forward and share their thoughts in an open mic. Details on the flier.

On the 13th of September MP Jimboomba is hosting a special guest. He is very well read on Weather Manipulation and will provide a great talk on NHS (Nature Harmony Systems). MP Jimboomba hold their meetings at Woodhill Hall on the 2nd and 4th Friday of each month.

Their group is looking to hold more meetings on solution based information and will continue to do so. Jimboomba is worth the drive to meet these amazing people, you get the feeling of one big welcoming family when you attend a MP Jimboomba meeting.

My place Jimboomba Group:

<https://www.facebook.com/groups/1658444057905749>

WRITERS' OPEN MIC NIGHT!

3RD WEDNESDAY OF THE MONTH

At Café on Cusack in the Colonial Village
Cusack Lane, Jimboomba

7-9 p.m.
Entry fee: \$5.00 includes raffle ticket.
No bookings required.

Coffee and cake available for purchase – cash only
Readings begin at 7.15 pm
You're welcome to read or just listen.
Readings can be a poem or excerpt from something longer, published or in process.
Each reader will have five minutes.

This is a Community-Building Initiative of My Place Jimboomba
Profits to be donated to Beyond Barriers for the homeless in the area.

My place Hervey Bay

Here at MP Hervey Bay we've tried various venues to accommodate our members. The very first was in one of our parks on the Esplanade, much interest. Community Centres have proved the best. Hall hire donation jar covers the costs, need to complete a form re being a NFP organisation for a discount as our council owns them all!

Local hotel & RSL conference rooms have been free of charge, needed a letter re NFP organisation. Have tried a day meeting as well as a night meeting. More at night meetings.

We support The Light newspaper & have copies at our meetings. Have a donation jar there too.

Guest speakers or local topics/topics of interest work well. Thanks to those who have shared their PowerPoint presentations on Smart Cities and 5G, these were successful.

This month we have Mike from Fraser Coast community Voices explaining the appeal process with Centrelink, (his knowledge is unreal) plus two of our health professionals informing of their practices & benefits.

We have a bee keeper lined up for a future meeting. We had a great time at one of our local restaurants with the European owner showing us how to make traditional apple strudel with a coffee to go with it. He donated the takings (\$5 a head).

Our Food security/Gardening group were shown how to cure meat at one of our community gardens days.

Another day we harvested cabbages, two members showed us how to make sauerkraut & kimchi. Another member demonstrated it at one of our night meetings. Everyone loved it.

We have a separate share table for members to swap, sell or gift produce.

We attend MP Maryborough meetings when possible plus Stand in the Park meetings too. Trying to get around to other community groups too. Was a guest speaker at Rotary one night.

Forgot to add that we attend our local council meetings and stream them if we can't attend. This has created great interest in what's being passed at meetings and educational as well. Our councillors haven't been used to such continued attendances by the public. We have been working with them as much as possible, always polite and courteous. Council elections was a busy time as we tried to get some members over the line. Gave them a run for their money. Members supported them in that hot weather!

Ciao for now, Sandie. My place Hervey Bay Group:

<https://www.facebook.com/groups/1220942298458253>

My place Maryborough

We have meetings on the first Sunday of every month at 1pm.

We exchange seeds, food, and information and put plans in place for the next meeting. We have 3 guys living off the grid with their own electricity supply costing up to \$4,000. MPMB have members about 8 to 14 members coming to meetings are interested in buying in bulk to set theirs up, too.

Each member is going to grow a summer vegetable to share, and we have members who bring fresh eggs from their yard. Our committee members go to other community groups like Maryborough City Progress Group, which support street parties for our community and meetings about wind turbines at Gympie and locally. Taking in council each month about different things.

Supporting those who need it the most and challenging our local hospital board to improve services with the backing and support from Fraser District Community Voice.

FDCV is linked in with MPMB. One of our committee members, Mike Grounds, will be talking at the MPHB meeting on 20th August to teach them how to challenge Centrelink and get pensions, funding, etc. Selwyn Connell runs the Maryborough Community News FB page, which supports posts about political issues and other political concerns.

My place Maryborough Group:

<https://www.facebook.com/groups/751071643246408>

My place Yatala

My Place Yatala is in an Industrial suburb in the northern Gold Coast of Queensland. Our group currently has 273 members and 20-30 participating members. We come together for our Meet Up once a fortnight on a Friday. One week at Lilego Café Ormeau at 11am until the lovely owner Donna plays the Closing Time song about 2pm ? On our alternate Friday we meet at Whistlestop Café Pimpama at 6pm, until 9pm. This is when we usually have a speaker and great pizza's.

We meet on the second Sunday of the month at Peachey Community Gardens Ormeau at 3pm-4pm for our Crop Swap and Book Swap. Everyone brings their excess produce and recyclable goods. Some of our members support the homeless, and other local groups. We occasionally host Forest of the Fallen at Logan River Parklands Beenleigh. Our Men are starting a Brother's Unite/ Men's Shed group. We have had workshops on Solar battery generator making, Fermenting, Sacred Geometry, Selfcare, Crochet, various Gardening and always planning more workshops.

Our next one in on Water Dosing on 31st August 9am at Peachey Community Gardens Ormeau. We do venture to other groups like Common Law, local Markets, council Meetings. Aim is to support local Farms and community and learn from each other to create a better future.

MP Yatala also join the Beenleigh Stand in the park and distribute The Light Newspaper in local laundry mats, cafe's and where ever else we leave one behind (Dr's Surgery etc).

My place Yatala group:

<https://www.facebook.com/groups/6082122791899848>

My place Gold Coast

One of My place's biggest groups, My place Gold Coast has had fortnightly meetings for the last 15 months with only a break across Xmas/New Year. We have had amazing people pass through such as William Bay, Michael Grey Griffith, Ethan Nash from Tott News, Dr David Nixon, Kara Thomas from AMPS and even our Darren from My place Australia. MP Gold Coast has been very active in local campaigns such as "Save our Southern Gold Coast" which is a battle against over development where council is pushing to run a tram line all the way to Coolangatta Airport, Remove Satanic Monstrosity where council it would appear has approved something hideous for the front entry point of HOTA (Home of the Arts building).

Over time there has also been many Forest of the Fallen displays and many members have been getting down to Council chambers for their meetings.

We have developed a local email register which is knocking on the door of being 500 strong breaking the shackles of censorship where much gets hidden from social media. We are a large group with the exciting news that we will be adding a new Gold Coast group to the area named Southern Gold Coast.

One of our amazing members Kevin, is working on an app alongside IT guru Braydon which will provide us much information on each product we purchase off the shelves including where it is made and what is in the product itself. This is an exciting project where you the consumer can simply scan the bar code to reveal the information enabling you to find a more local suitable supplier and support the family businesses of Australia instead of greedy corporations. **On the 24th of September**, will be the version 2.0 launch of My Trace an app where we can learn a lot more about the products we purchase. This will be presented at Club Csi at 6:30pm.

My place Gold Coast is run by the amazing Fairly and Luke who continue to push for a better future on their varying quests. They work with many local groups including Gold Coast Common Law, Libertarians Gold Coast, Climate and Energy Realists, Australia Exits the W.H.O, A1 and many more.

My place Gold Coast Group:

<https://www.facebook.com/groups/1375184800014068>

My place Blackbutt, Yarraman and Surrounds

From Coordinator Debbie:

Hi my name is Debbie and I'm the organiser of My Place BY&S. We have a core group of dedicated, compassionate and committed people who strive to bring likeminded people together and help to spread awareness and raise consciousness amongst the local community of the South Burnett Region, while looking for solutions to live a better way of life away from the current broken system.

MP BY & S, holds a monthly social for members at 'John's Place' generally around one of the last Saturdays of each month. This is around an open fire, live music along with food and drinks.

The next meeting for the group is at the end of the month August roughly around the time of writing this newsletter, where they will congregate after attending the Holistic Health and Community Market in Yarraman. Dr Stacie King (MBBS) is a conscientious local medical practitioner working on the frontline of our current broken medical system, having the courage to speak his truth and to help the community. Open forum with Q&A.

Then coming up on the 8th of September, MP BY & S will be not only attending the Healthy Solutions Expo in Wondai, but they have even been invited to speak on stage! Possibly after one of the local members.

MP BY & S is a relatively new group considering others such as Gold Coast, Townsville and Jimboomba who have been around for a while now, yet they have come a very long way. The area is very awake with lots of concerned farmers who want to make a positive change. They as a group have continued to get the message into the public space and they are very well known around the area. They bring no harm to their community, just awareness which is perfect for the average Joe Blow who is very much looking for answers as a lot of people around Australia are.

My place Blackbutt, Yarraman & Surrounds group:

<https://www.facebook.com/groups/970873890679005>

My place Ingham

From Nat:

Apart from our monthly meeting taking place, we had two successful fundraising/promotional events in the month of August. There was a sausage sizzle held at the back of Coles, Ingham on the 10th. This makes it the third sausage sizzle held by My Place Ingham. This is now a regular event and is achieved monthly with the help of our Sponsor, *Galipos Midtown Meats* located in Ingham, and the dedicated MPI members who regularly help out, including Ned who co-ordinates the event.

Robyn, Kay, Joe, Bob and Johnny setting up for the August sausage sizzle.

The second event was a 'Poker Run' (poker, pub crawl, car/bike ride, camp out), held on the 17th which was organised by MPI member, Tom Hunter who put in a great effort. The event was achieved with the help and support of MPI members, local residents as well as Tom's friends and fellow bike enthusiasts. Starting at Forrest Beach Hotel, the procession arrived next at Lucinda Hotel. A stop at Halifax Hotel for lunch before the final pub, the Seymour Hotel in Bemerside. The final destination was the tranquility of Tom's Upper Stone property with the option of camping.

The start of the Poker Run – Tom at Forrest Beach Hotel.

Kay and Anu organising the first cards for participants at Forrest Beach Hotel.

Food and refreshments as the sun is going down at Upper Stone.

My place Ingham Group:

<https://www.facebook.com/groups/619759716885800>

My place Nambour

A look at My Place Nambour. Nambour came together 18+ months ago from a few freedom groups. We started with about 60 attendees, and now have 35 who come to meetings with a level of commitment – but not all on the same day. Some of our members are with SITP, or VOTF etc and that overlap is good, as is the connection we have with other My Place groups on the Sunshine Coast.

The LGA sub-group attends Council meetings. Our main co-ordinator, Camillo, stood in the recent council election and that gave him an opportunity to speak to groups of people across the electorate, and to promote My Place.

We have merged two sub-groups into a Garden for Health Hub because the same people were interested in both. We have naturopaths and nurses in our group, we visit gardens, and welcome information from professionals. A goal we have discussed is to prepare a small booklet we can share within the wider community – old fashioned advice for growing herbs/plants for health and healing and some simple tips to handle minor health issues at home – nothing that would require medical expertise, but common sense and natural remedies.

Facebook has delivered for us. People who join their local area swap groups, or market groups apply to join because Nambour is in the name. This means our Media person can contact them and explain My Place. We now have a few of those people involved.

Our main monthly meeting is on Saturday afternoon, which suits people who work, those who want to shop at the morning markets and the older folk who don't like to go out at night. Members are encouraged to ask questions and people with extra produce bring that to share. We do a great job of the afternoon tea segment with lots of bonding. Unity in Community.

My place Nambour group:

<https://www.facebook.com/groups/6573251946019166>

My place Coolum

Regular Meetups:

*Rhythym4Recovery Drum Circle- Uniting Church Hall 26 Elizabeth St Coolum Beach, 3.30pm ever second Friday eg. Aug: 16th, 30th etc

*SOS Food Mart – "Meet n Greet"-Uniting Church Hall 26 Elizabeth St Coolum Beach. 10am-1pm Tuesday to Friday (Donations gratefully received)

Goorijala Undbi Bush Learning Centre- 6 Grasstree Court , Sunrise Beach , 5pm last Friday Monthly, Yarning Circle & Fire Night, Food & Fellowship, Music , dream time story telling.

*Orange Sky - Community Clothes Washing , Uniting Church Hall 26 Elizabeth St Coolum Beach, 9am-12pm every Tuesday @ SOS Food Mart.

Projects:

*The Undbi Farm- 145 Ben Williams Drv. Yandina. Market Gardens, Food Growing, Yarning Circles, Camping, Bush Tours

*Goorijala Undbi Bush Learning Centre- 6 Grasstree Court , Sunrise Beach.

*Queensland Homelessness Working Group - ongoing physical & online support <https://communityvillage.com.au/>

My place Coolum Beach group:

My place Inner North Brisbane

My place Inner North Brisbane is centred around the Stafford/Chermside area and is our closest group to Brisbane City. They have been running for some time now and have done so well considering their close proximity to the city. They have a couple of events and important actions coming up which we will share here.

MVP LAWS PROJECTS (Land, Air, Water, Spirit)

WE NEED YOU

We have four projects addressing the needless contamination of the planet (and all its occupants) and the unconscionable waste of tax payers money:

1. End Toxic Geo-Engineering
2. End Mandated Water Fluoridation
3. Reform Cement Coatings & Water Proofing Industry to stop contamination of our drinking water reservoirs and water ways
4. Reform the Management of Public Swimming Pools to make the water safe for our kids

If you have:

- Taken soil and water samples and had them analysed

Reach Out - If you have a passion for:

- Research & Learning new things
- Creating Educational Material & Work Instructions for key stakeholders & MVP

Please Contact Us: Telegram channel: <https://t.me/+tJG0NMg3xy45MzAI> Or at: MYPLAWS.proton.me

MYP IN BRISBANE UPCOMING EVENTS

SEPT 16th: WHAT IS A NOTICE OF LIABILITY (NOL) and HOW the Inpower Movement use it to fight back against mandatory vax; 5G; & trespassing technology with FRAN

OCT 14th: EMF, what is it and its sources; its bioeffects and how we can reduce our exposure with VICTOR LEACH App Physics RMIT; MSC Melb Uni (Secretary of the Oceanic RadioFrequency Scientific Advisory Association)

WHERE/ WHEN: 6pm third Monday of the month @ the Everton Park Library (Meeting Room 1), 573 South Pine Road

P.M.A zoom link

Recently Darren and Marcel toured around western Victoria and even into South Australia to highlight the importance of learning the full way to step into the private. At a My place meeting recently they recorded the conversation which was put forward to the members on the night. As My place Australia has its own Rumble channel, we now have lots of important content on it for all of you to learn from. This is the link regarding the P.M.A which has literally had hundreds of hours put into it with training modules coming hopefully very soon. To watch the latest go to:

<https://rumble.com/v5bru1x-our-place-australia-information-and-education-session.html>

MPAustralia (Rumble Channel)

Best to Subscribe to the MPAustralia Rumble channel and to through the other videos. Your QLD coordinator (Luke) has put together two himself, one with the help from Penny (the NSW Coordinator). Links to those below:

Computer Tricks and Tips (with some humour in it):

<https://rumble.com/v57y03e-my-place-australia-computer-tricks-and-tricks-with-luke-hart..html>

Business register Training:

<https://rumble.com/v40tevg-mpa-business-registry-coordinator-training-with-luke-and-penny.html>

Many other links including Empowering Families Australia an intuitive to provide support for families and children who are suffering. This is an amazing effort from Penny who has already done so much for My place Australia. She has a massive heart and puts herself forward to help those who are struggling.

Business Directories Across QLD

Over the last 12 months, My place Gold Coast has pushed forward with it's business directory. It started as just a list of 20 or so suggestions to where to shop. All in order of supporting your local like minded tribe allowing them to continue what is special to them, perhaps what they also contributed to Epic, the seeds that will forever sow.

You see, those who were a part of that incredible time in history in what ever shape or form, you all drew into your knowledge and skills in order to make epic come together and to this day, this is still widely spoken about across the country.

Now as you have settled back into your life, now it is somewhat ingrained into your local community where also perhaps your income comes from. The vision for all of the My place business directories has been to keep that flowing and evolving. It would of stayed alive regardless as the strength of what we all do still would of existed, however the network was what we achieved where we all continue to forever grow in this network where many of us grow in strength being backed by our own CommUnity.

My place Australia in Qld assists close to a dozen business directories all in their associated towns or regions, with others in the process. It covers an estimated 700 small to medium businesses ranging from well over 100 different options and where social media generally censors the little guys, this is one avenue where the small family businesses can actually grow with the backing from his or her CommUnity. Economic sovereignty can flourish. If you have a small business in Qld, My place are happy to work on including yours to the appropriate register. Where theses business registers do not currently exist, we will continue to collect all the suggestions ready for the release of a new register. By submitting your business, if there is a register available, we can email it to you direct so you can commence helping your local people before outsourcing to a corporation. This is very much about keeping economy, not only in Australia, but in your local town or region, building this amazing place we call home back up from scratch. Please email us at qldnews@myplaceaustralia.org with your business name, what you do, 2 contacts, location and whether it is available online or not and we can look into listing your business within your local community.

Empowering Families Australia

My place Australia are really getting many good things happening on a national level, one of those is EFA (Empowering Families Australia). Set to offer support to those whom need this within our community. There is also a discussion of a space for Men to come forward and open up about their struggles. Quote from EFA:

What would you do if your child was suddenly removed from you for no reason? Please SHARE! In Every Single My Place Group Joined by Craig Cole, Serene Teffaha, Matt Lawson, Penny Johnstone.

Empowering Families via Telegram:

EFA Telegram- <https://t.me/empoweringfamiliesau>

UnityHub

As we all take important steps away from the matrix and commit to building a new society, we also need to stay connected without restriction. UnityHub is an online social media platform entirely run by My place. The servers are here in Australia meaning your data does NOT go offshore. It is also NOT flooded by advertising like other platforms including Facebook. There are many things you can do on UnityHub. It has a chat function enabling us to step away from things like messenger. Here you can even record audio to send to those you are connected with.

UnityHub is structured in a way where you will see “groups” on a national level initially, then you find your state you are automatically put into (in this case Queensland of course) and all the local communities are there. Once many of you within your group are subscribed to UnityHub, here you can communicate locally with everyone else.

Many things such as Empowering Families Australia and a Mens support group (in development called Repowering Men) are already on UnityHub for us to get involved in. You see, My place Australia is a lot about support as we rebuild this country we all still truly believe in. Join us to commence this journey of empowerment.

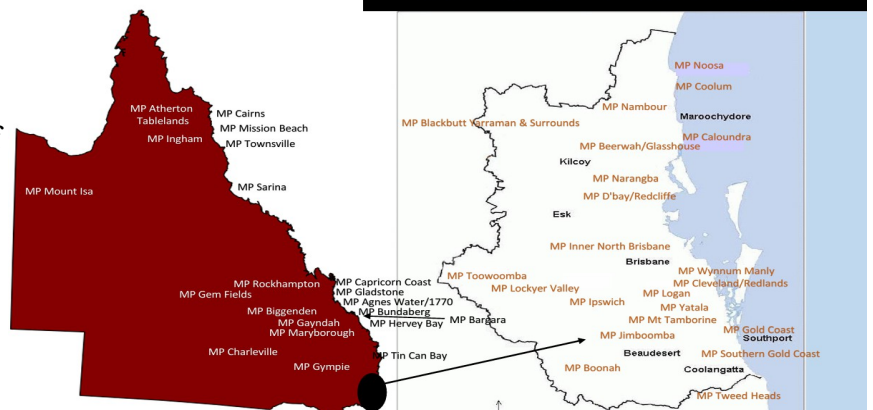

UnityHub is very close to being available via an APP just like other platforms. The IT team are just finalising the final details including trademarks. To join, it does require a simple \$5 a month (or \$60 a year), it is unrestricted provided the users follow the simple mantra the positive culture agreement abides by in “Do No Harm” to our fellow freedom warriors. Go to: <https://my.myplaceaustralia.org/> for more information.

We want you!

With the close to 50 or so groups across QLD, many at times struggle to gather speakers for their meetings, especially up the northern end of the state. Being in a room learning new ways to improve yourself is a very special experience therefore we want to invite people with skills to step forward and share the knowledge you may hold for your community. If you would like us to connect you with your local group as a speaker please email us at qldnews@myplaceaustralia.org

Furthermore, the map to the right are our groups across the state. We are always open to connecting more people and will continue to work on making My place Australia operate more efficiently across Qld. This has involved merging a couple of groups already. We would love to hear from people between the areas of Rockhampton and Townsville as a specific area of importance. So if you know of people around Ayr, Bowen, Airlie Beach, Mackay or Marlborough please get them in contact with us.

My place Communities across Queensland. Search "Myplace.org" to find your local group

Community Action!

EMF Busters Australia

We are dedicated to helping the public wake up to the Electric and Magnetic Fields (EMFs) that are invisible energies, often referred to as Radiation, that are associated with the use of electrical power, solar inverters, mobile phones, WiFi, Bluetooth, and magnetic issues from overhead cables, meter boxes and Smart meters. We even help you understand the effects of man-made lighting.

Solutions that work and can be proven to do so are our ultimate tools to safeguard you while you sleep and work. Sadly the market is full of cons and snake oil so testing what claims to work is important and we do this with our professional test equipment and more than 40 years of engineering experience including the healthcare industry, military signals and telecom 5G rollout.

EMF Busters Australia have been presenting on all these topics and offer fascinating and sometimes startling information in a lively and engaging manner. So if your group would like a presentation to understand the issue and learn real solutions OR if you would like to book a home or workplace EMF consultation then please email Hello@EMFBusters.com.au

Website www.emfbusters.com.au Phone 1300 863 000

Fluoridation of Qld water (with Colin Varian)

Some Queensland water fluoridation facts

QLD has about 50 My Places and about half are in an area with a fluoridating Council. The My Places in fluoridated QLD Council areas have about 10,000 Facebook members. All QLD MY Places have over 14,000 Facebook members.

Only 19 QLD Councils, out of a total of 77 QLD Councils, currently add fluoride to some drinking water schemes. 14 of these 19 QLD fluoridating Councils have one or more MY Place groups in the Council area.

Not one of the 19 QLD Councils inform their residents that by QLD Law the Councillors are the sole decision makers on mandate water fluoridation. How are they not Fluoride Cowards?

Not one of the 19 QLD Councils inform their residents that providing medical treatment without full and free informed consent, violates the QLD Human Rights Act, Section 17 (c).“- a person must not be subjected to medical treatment without full, free and informed consent.”

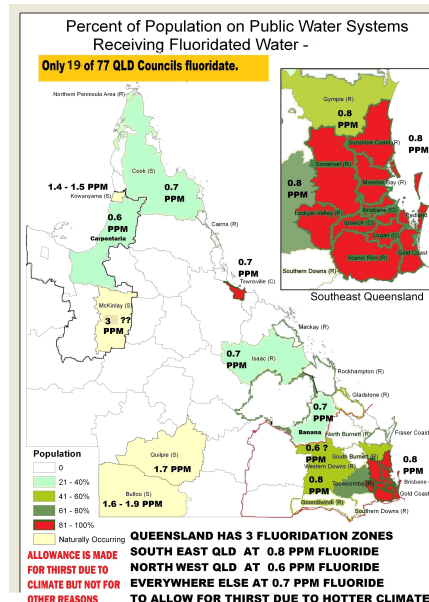

Not one of the 19 QLD Councils inform their residents that there are proven harm and risks of harm from ingesting fluoride. How are they not medically unethical?

Science on fluoride harms

<https://fluoridefreeaustralia.org/harms/>

Mainly Urban South East Queensland with a Water Grid

South East Queensland

Noosa, Sunshine Coast, Moreton, Brisbane, Ipswich, Logan, Redland, Gold Coast, Somerset, Lockyer and Scenic Rim Councils.

Not one of the 19 QLD Councils inform their residents that there has never been a risk assessment done for fluoride safety, and no fluoride safety studies have ever been carried out. Not one of the 19 QLD Councils has consulted with all residents and no full informed consent has ever been received from all residents. Not one of the 19 QLD Councils inform their residents that fluoride is a proven enzyme inhibitor, and a proven neurotoxin. Not one of the 19 QLD Councils inform their residents that they are violating the Local Govt Association of QLD, LGAQ, policy that the QLD State Govt should pay **all costs** including the running costs for mandated water fluoridation, but instead the residents are paying the running costs.

Toowoomba's fluoride dosing plant stopped working over 9 months ago, and still has not been repaired, because of high costs. Sunshine Coast's fluoride dosing plant was to be out of action for about 9 months for repairs till about September 2024. Cairns Council stopped water fluoridation in 2013, but are now asking about fluoridation again in a dodgy optional online survey.

All QLD Councils need to be **served** with multiple complaints, including Human Rights complaints, Administrative Action complaints and normal complaints about the lack of openness and transparency.

ACTIONS required can include many complaints to the fluoridating Councils. Just some listed below.

Complaint types against QLD Councils mandating water fluoridation

A complaint is an expression of dissatisfaction, and the remedy required is that mandated water fluoridation by Councillors be halted now and forever.

Just some possible complaints below.

1. Human Rights Complaints - section 17 c of the QLD Human Rights Act - a person must not be subjected to medical treatment without full, free and informed consent
2. Administrative Action Complaints - to decisions made by the Mayor and the Councillors which affect you the complainant - To decisions not made to fully inform water consumers of all facts on legislation and the science and harms, which affect you the complainant.
3. Regular Complaints - NO man or woman has been found to take personal financial liability for fluoride harms - No consultation - No consent sought - No compensation for water filter costs, detox products and vitamin and mineral supplements as fluoride accumulates in the body and fluoride is a vitamin and mineral inhibitor - No warnings of possible health risks - No warnings for fluoride hypersensitive individuals - No warnings of other possible sources of fluoride poison - No warnings for pets and animals for risk of harm - No warnings for plants for risk of harm - No contract for Councillors to deliver healthcare treatments - Councillors violate Consumer Law, no guarantees, not fit for purpose. No consent - No consent to violate bodily autonomy from fluoridated water, foods and beverages - Councillors do not have the expertise to prescribe a medical mandate of fluoride poison. - Councillors should stick to roads, rates, rubbish, parks, clean drinking water and libraries, and stay out of personal health decisions. - QLD Councillors have no courage to admit that they are the fluoridation decision makers

THE REASONS 31 QUEENSLAND COUNCILS VOTED OUT OR REJECTED MANDATED WATER Summary

1. **COSTS, waste of money, State Govt should pay the running costs (an LGAQ policy)**
2. **PUBLIC OPINION, no community consultation, high opposition**
3. **ETHICAL CONCERNS, it is mass medication, no freedom of choice**
4. **HEALTH RISKS, no Govt studies, accumulating science showing harms**
5. **FLUORIDE not a water treatment but a healthcare treatment**
6. **A LEGAL RISK to Councillors, possible future class actions**
7. **INEQUITY, or discrimination forced on some but not all**
8. **NOT IN CONSENSUS with the majority of QLD Councils.**
9. **STAFF HEALTH RISKS, potential future compensation payouts**

Pharmacy letter serving

If your team would like to serve a letter to the pharmacies that are still pushing the poison, please follow the instructions to register which pharmacy you are serving and use the link to access the letter template.

You MUST register your team to dollshouseblooms@gmail.com and thank you to those organising this.

NOTICE OF PERSONAL LIABILITY IN WRONGDOING FOR ALL INDIVIDUALS, ADMINISTERING THE CO-VID 19 GENE THERAPY/VACCINATION.

Share to your communities and lets make an impact! Good Luck

Thank you!!!

This concludes the very first My place Qld Newsletter. This would not be possible without the amazing coordinators who are literally the backbone of My place Australia. Each and everyone of you who have contributed to this, have made the process very easy. Now we have the task of getting this out to our amazing community across the state, for this we thank you in advance.

In the last month, we have reached out to see what kind of coverage we expect to have. We are happy to report this will be at least 1,500 people via email. This is not including platforms such as telegram and signal chats. We would kindly ask each coordinator to only send this via these platforms and not include Facebook for the time being. Enough of playing with censorship, now is the time to spread to word via means such as above.

With 1,500 people receiving this via email, we ask one special task: We have all had conversations with those who are all of a sudden reaching out for answers (to a lot of things), this is the perfect person to **forward this PDF onto** if you are a member of any My place group in QLD. This will enable us to grow.

At this stage we will attempt to do this monthly, however that depends on input. From here, if you would like to submit what your group is up to, you have until Saturday the 28th of September to let us know.

Last but not least, My place Australia is a guidance community across the state sharing information to as many who are happy to learn, therefor the information put forward is of the responsibility from the initial source and not the responsibility of My place Australia. We are all responsible to do our own research and trial the many things each group comes across and make our own judgement. Saying that, then we can communicate the important learning and information to our fellow people in our circles and all grow organically.

We really look forward to where this new path takes us.

My place Queensland team.
