INTRODUCTION

Welcome to the Newsletter for My Place Port Adelaide & Western Suburbs (PAWS) and for the Northern Suburbs.

We aim to keep this newsletter succinct and to alert you to interesting events scheduled within our communities.

BUSINESS DIRECTORY

It is in our best interest to support local business, to actively take our money away from the corporations which aim to control our lives. To that end we have developed a business registry which can be found under the Facebook page – FILE tab and invite you to add your business details to our registry by emailing myplacepaws@gmail.com.

Details to include: Name of business, address, contact person, phone number, email address, website and services offered.

To assist with community projects, do you have any tools that you can lend to the group. E.g.: chain saw, Chipper/Shredders, trailer, etc.

REPORTS

➤ Book report

▪ 180 DEGREES by FEARGUS O'CONNOR GREENWOOD

Ever wondered what the real story is? This will tell you, and it's not what you'll find on the news. A must read for anyone wanting to understand politics, where we have come from, how we ended up here, the players in the game and what to look out for, from the factual perspective of experts and people who know. Find out what's behind the scenes and who's pulling the strings. Get it while you still can. Manufactured by, and only available from, Amazon.

▪ RED OVER BLACK by GEOFF McDONALD

Written in 1982 by a disillusioned Union Rep who started his political career in the Communist Party, and woke up to what was going on. Geoff outlines the tactics being used to control Australia. They are playing the long game, always have been, always will be. The takeover of our country will be done financially through immigration and land rights. Read about what was set in motion from the 1950's to the 1970's that is now ripe for the picking. Become informed so you can see the game that you are in. Then you can do something about it. Available from Veritas Books online. They also sell a wealth of books that are worth stocking up on.

MY PLACE – PAWS Gardening & Nutrition Group

We were very fortunate to be given 13 fruit trees, which had to be dug up and replanted. This was done as a team over 2 sessions. We are working really hard, making the garden come together with the paths developing well and providing shape to the food forest.
