

11:11 MASS ACTION PEACEFUL PROTEST - NO DIGITAL-ID

11th Day – 11th Month

Remembrance Day- begins at 1pm after you have attended your - Remembrance Day of Respect.

For 1 Day or 11 Days: **Cash Only – No Online Shopping – No Digital ID Compliance-**

Taking the Day off.

This is a peaceful **Mass Non-Compliance Protest** against the rollout of **Digital IDs** across Australia and globally. The people are saying **NO!**

NO to the corporations that fund and profit from control.

11 Days of Non-Compliance

- **NO Coles, Woolworths, Aldi, Big W, Kmart, Bunnings or other BlackRock-owned corporations.**
- **Cash Only:** Farmers, co-ops, small shops, and face-to-face trades.
- **Delete Corporate Apps:** UberEats, MenuLog, DoorDash, Uber, Ola, HelloFresh — systems built to make people dependent, unhealthy, and lazy.

Why We Do Not Consent to Digital ID

- **Financial Control:** A cashless society = programmable money, spending limits, frozen accounts, and total surveillance.
- **Medical Control:** Digital ID ties into medical data, allowing governments or corporations to withhold services unless you comply.
- **False “Safety” Narrative:** They will claim Digital ID is to protect us from illegal immigrants, fraud, or terrorism — but it’s really about mass surveillance and restriction of freedom.
- **Corporate Capture:** Coles, Woolworths, Aldi and other BlackRock/Vanguard-owned giants are part of the global push to eliminate cash and centralise power. Once cash is removed, reversing this system will be impossible.

How to Prepare Before the 11th

The protest lasts **11 days**. Prepare in advance so you can boycott the corporate system completely.

✓ Essentials to Stock Up On (WITHOUT COL/WOOL/ALDI):

- **Farmers Markets:** Fruit, vegetables, meat, eggs, honey, bread.
- **Local Growers:** Buy bulk potatoes, pumpkins, apples, carrots direct.
- **Small Family Shops:** Butchers, bakers, health food shops, bulk food co-ops.
- **Pantry Staples:** Rice, beans, oats, flour, oils, spices from **independent grocers**.
- **Household & Health:** Toilet paper, cleaning basics, candles, vitamins from small chemists or local suppliers.
- **Cash Preparation:** Break larger notes into \$5, \$10, \$20 to support small traders.

✓ Community Preparation

- Organise bulk buys with friends directly from local farmers.
- Set up or join a **barter/exchange network**.
- Host food-prep days with neighbours so no one needs to fall back on big supermarkets.
- Let local family-run businesses know in advance and encourage them to go **cash only** with us for 11 days.

11 Days of Non-Compliance

- **NO Coles, Woolworths, Aldi, Big W, Kmart, Bunnings or other BlackRock-owned corporations.**
- **Cash Only:** Farmers, co-ops, small shops, and face-to-face trades.
- **Delete Corporate Apps:** UberEats, MenuLog, DoorDash, Uber, Ola, HelloFresh — systems built to make people dependent, unhealthy, and lazy.

- **Support Local Food Sovereignty:** Farmers markets, farm gates, small grocers, direct-from-grower collectives.
 - **Cook & Share Meals:** Strengthen community and health, not corporate profits.
 - **Barter, Swap & Trade:** Clothes, skills, produce, services — bypass the system entirely.
-

Extra Resistance Options

- Take the first day off (Tuesday 11 Nov), or as much time as you can.
 - Use annual or sick leave to stand strong the full 11 days.
 - Host community food swaps, shared meals, and skill-trade days.
 - Educate others — hand out flyers, post online, talk to your neighbours.
 - Show there is life and abundance **outside the beast system**.
-

The People Hold the Power

Every dollar spent in **cash with a local family business** is a vote for freedom.

Every app deleted is a strike against corporate control.

Every day outside their system is proof: **we don't need them**.

Together — **cash in hand, community connected, independent from BlackRock giants** — we remind the establishment that **the People Hold the Power!**

Australians pay around \$4 billion annually in card surcharges alone, plus nearly \$1 billion in additional fees for using cards over cash. Over 11 days, this could translate to a revenue shortfall of roughly \$120-150 million (based on prorated annual figures)

The Australian government, which is actively promoting digital payment modernization as part of its economic recovery plan, would face indirect but notable effects from this scenario.

This might also underscore the government's push for a resilient payments ecosystem
